Dimboola Olive Estate is proud to be an agribusiness partner of the 150km Feast

Dimboola Olive Estate has a proud history since the trees were first planted in 1945. Perched on the edge of the Little Desert National Park in Western Victoria, the olive trees on the Estate were lovingly restored in 2019 by owners, Darren & Cheree Schneider.

The olives were allowed to grow naturally, thriving on the sandy soil of the western Wimmera. From our first crop this year, we are thrilled to present an exclusive and limited batch of olive oil for our community. Our aim is 'to produce the very best extra virgin olive oil we can!'

After the fires, the impact of the 150km Feast cannot be underestimated to demonstrate producers are still in business.
